MUSCLE CARE

naturally made in Germany

muscle treatment gels for **HORSES**,
full of natural ingredients

RECOVERING GEL

Instantly **heals (micro-)muscle cracks** and makes horses **loose and supple** when being tensed and stressed.

- Focus on healing muscle & tendon damage •
- Accelerates the regeneration of your horse •
- Relaxes tendons and joints and relieves muscle cramps •

Available in 2,5ltr. stablebuckets and easy-to-carry 250ml. jars.

Developed with the following natural ingredients:

- **Arnica:** rapid healing effect on minor muscle damage.
- **Rosemary:** long lasting stimulation of blood circulation.
- **Horse chestnut:** inhibits inflammation of blood vessels.

contains NO prohibited substances

approved and certified product by FEI laboratory

- Use **AFTER** training sessions or any physical effort and when your horse is tensed or stressed.
- Apply liberally (a hand full) on the fatigued or tensed area's and rub in gently via massage until a shiny surface appearance ; allow then to withdraw slowly.
- Use maximum 3 times in a 24h. period.
(working efficiency of ca. 2 to 3 hours)

Does not leave any stick residue or any color shine on the rider and horse bodysurface or on clothing, saddles and any other equipment.

Expiry date: 12 months after opening.

COOLING GEL

Reduces swelling caused by impacts and cools down warmed or (over)heated muscles and tendons for **preventing from inflammation.**

- Long lasting cooling of muscles and tendons •
- Assists in soothing bruises and soft swellings •
- Aids in reducing inflammation •

Available in 2,5ltr. stablebuckets and easy-to-carry 250ml. jars.

Developed with the following natural ingredients:

- **Camphor:** reduces pain around the injured bodyarea's.
- **Castor oil:** analgesic and stimulation of the blood circulation.
- **Mint leaf:** ensures a deep, cold and longlasting penetration.

contains NO prohibited substances

approved and certified product by FEI laboratory

- Use **IMMEDIATELY** when an impact has taken place and whenever cooling of muscles and tendons is required.
- Apply liberally (a hand full) on the fatigued or tensed area's and rub in gently via massage until a shiny surface appearance ; allow then to withdraw slowly.
- Use maximum 3 times in a 24h. period.
(working efficiency of 2 to 3 hours)

Does not leave any stick residue or any color shine on the rider and horse bodysurface or on clothing, saddles and any other equipment.

Expiry date: 12 months after opening.
